

Fateme Bokaei

Ph.D. of physiotherapy

Assistant professor of physiotherapy, Isfahan University of medical sciences

Research interest:

Respiration, obesity, posture, spine, musculoskeletal, pain, ultrasonography

Articles:

Comparison of the clinical and morphological effects of release techniques using manual pressure or an algometer on the latent trigger points of the trapezius muscle

Cervicogenic Dizziness after Humeral Fracture: A Case Report

Associations between menopause status, spinal-related musculoskeletal variables and gait speed in middle-aged females: A short report

Comparison of Postural Balance, Muscle Force and Spinal Posture in Obese Children and Adolescents- A Protocol Study

Investigating the Reliability of the Measurement of the Cervical Muscle's Echo Intensity

Effect of Contractubex phonophoresis on postsurgical scar of carpal tunnel release: A case report

The efficacy of trunk bracing with an instrumented corrective exercise on spinal deformity, pulmonary function, trunk muscle endurance and quality of life in adolescent idiopathic scoliosis: Protocol for a parallel-groups clinical study (Preprint)

The Relationship between Neural Properties, Mechanical Properties, Functional Outcomes, and Clinical Parameters in Spastic Chronic Stroke Patients: An Observational Study Original Article

Comparison of Effectiveness of Transcutaneous Electrical Nerve Stimulation and Dry Needling on Pain, Disability, and Pressure Pain Threshold in Patients with Upper Trapezius Myofascial Pain Syndrome: Randomized Clinical Trial

Correlation between Craniovertebral Angle and Thickness of Longus Colli in Women with and Without Forward Head Posture

Performance of Longus Colli Muscle in Women with and without Forward Head Posture

Rehabilitation in Subjects with Chronic non-specific Low Back Pain with Sacroiliac Joint Origin:
Protocol for a Systematic Review

Strengths of lower extremity and lower trunk muscles in females with patellofemoral pain syndrome

The Study of surgery referral accordance of patients affected by sciatica pain with standard
therapeutic criteria

R E V I E W Therapeutic Electrical Stimulation Currents in Chronic Non-specific Low Back Pain:
Designing a Systematic Review

Ultrasound echo intensity of cervical muscles in women with and without forward head posture

Comparison of cervical muscle thickness between asymptomatic women with and without forward
head posture

A new device for measuring isometric force of the craniocervical flexor and extensor muscles and its
reliability

Comparison of isometric force of the craniocervical flexor and extensor muscles between women
with and without forward head posture

Reliability of Rehabilitative Ultrasound Imaging In Measuring Thickness of Levator Scapula Muscle
in Asymptomatic Women

Comparison of upper posterior neck muscles strength in healthy and chronic tension headache
women
