

# CURRICULUM VITAE

## Maryam Yazdi

---

### Education

- Ph.D. in Biostatistics; 2018** Isfahan University of Medical Sciences, Isfahan, Iran.  
Thesis Title: “Extending structural equation mixture models using non-normal distributions and its application in medical data”
- M.S. in Biostatistics; 2011** Hamadan University of Medical Science, Hamadan, Iran.  
Thesis Title: “Bayesian Estimation of Mixture of GLMMs for Correlated Count Data”
- B.S. in Statistics; 2006** Isfahan University, Isfahan, Iran.  
Thesis Title: “Unbiased hypothesis testing”

---

### Research experience

- 2019- Present** Assistant Prof. of Biostatistics. Research Institute for Primordial Prevention of Non-Communicable Diseases, Isfahan University of Medical Sciences, Department of Biostatistics and Epidemiology, Isfahan, Iran.  
Job description: Teaching statistical methodology, Study design, data analysis and interpretation, manuscript drafting.
- 2017- Present** Senior Biostatistician. Isfahan Endocrine and Metabolism Research Center, Isfahan University of Medical Sciences, Isfahan, Iran.  
Job description: Study design, data analysis and interpretation.
- 2011-2018** Biostatistician. Student research committee. Isfahan University of Medical Sciences, Isfahan, Iran.

---

## Teaching Experience

- 2008-2011** Hamedan University of Medical Sciences, Hamadan, Iran.  
Courses: Biostatistics (154 hours)  
Applied computer (34 hours)  
Bayesian modeling using WinBugs (16 hours)
- 2011-present** Isfahan University of Medical Sciences, Isfahan, Iran.  
Courses: Biostatistics and research method (800 hours)  
Advanced Biostatistics (120 hours)  
Introduction to R (16 hours)  
Bayesian modeling using WinBugs and CODA (6 hours)  
Extracting the effect size in Meta-analysis (12 hours)  
Systematic review and meta-analysis (24 hours)  
Validity and reliability of questionnaire (6 hours)
- 2018-2019** Kashan University of Medical Silences, Kashan, Iran.  
Courses: Inferential Statistics (90 hours), Bayesian modeling using WinBugs (6 hours)

---

## Research Interests

- Bayesian hierarchical models
- Generalized latent variable models
- Survival data analysis
- Statistical learning
- Spatiotemporal models
- Meta-analysis

---

## Awards and Honors

- 2010** Ranked first among MS students of Biostatistics Department
- 2011** Ranked first in the national entrance PhD exam
- 2018** Ranked first among PhD students of Biostatistics Department

---

## Skills

- Language skills** English, Persian
- Mapping software:** ArcGIS
- Analysis Software:** R, SAS, Python, STATA, WinBUGS, SPSS, Mplus, LatentGold, Lisrel, Amose, PASS, MATLAB, CMA, MetaDisk, Minitab, Graphpad, Endnote, Microsoft Excel, RapidMiner

## Research projects

Job description: Cooperation as methodologist, study design consultant; advising in PhD or MS thesis

- Investigation of relationship between SHP-1 promoter methylation and related environmental factors in cord blood samples; Isfahan birth cohort
- Assessment of the relationship between macronutrient and micronutrient intake during pregnancy with promoter Peroxisome Proliferators Activated Receptors gamma (PPAR $\gamma$ ) gene methylation in umbilical cord blood
- Effects of zinc on children appetite, randomized clinical trial.
- Which Kinds of Probiotics are better for Infantile Colic- A Systematic Review and Network Metanalysis
- Investigation of prognosis and clinicopathological implications of APOBEC3B expression in breast and other cancers: A Systematic Review and Meta-Analysis
- Evaluation status of integrin subunit alpha 4 promoter DNA hypermethylation in CRC and other malignant tumors: A Systematic Review and meta-analysis
- Evaluation of Relation Between Helicobacter Pylori and Infantile Colic In Infants
- Associations of maternal overweight/obesity and anthropometric indices at birth with exosomal microRNA in

cord blood

- Evaluation of Pain Intensity in Heel Stick and Related Factors using Premature Infant Pain Profile- Revised in Selected Hospitals of Esfahan University of Medical Sciences in 2022
- Investigation of the relationship between leptin hormone polymorphism and its receptor and anthropometric indices: A systematic review and meta-analysis
- The relationship between angiotensin converting enzyme (ACE) gene polymorphism and anthropometric indices: A Systematic Review and Meta-Analysis
- The relationship between DNA methylation in Klotho gene and metabolic syndrome: a systematic review and meta-analysis
- Standardization of Depression, Anxiety, and Stress Scales (DASS) in adults with autism spectrum disorder, Isfahan (2021-2022)
- The association between DNA methylation and nonalcoholic fatty liver disease (NAFLD): Systematic review and meta-analysis
- Evaluating the effect of weight loss as a result of Bariatric surgery on the fatty liver pathological grade in the patients with morbid obesity at Esfahan Alzahra hospital form 2012-2014.
- The association between macronutrient intake (carbohydrates, proteins and fats) in the development and progression of myopia: A systematic review and meta-analysis
- The association between air pollution and vitamin D status: Systematic review and meta-analysis
- The association between salt intake and multiple-sclerosis: Systematic review and meta-analysis
- Prevalence and duration of breastfeeding based on socio-economic status in different countries: a systematic review and meta-analysis
- Comparison of Non-invasive Respiratory Supports in Newborns with Respiratory Distress Syndrome, A Systematic Review and Meta-Analysis
- Comparison the effect of nasal mask and nasal prong on duration of respiratory support in Premature newborns affiliated from RDS receiving N-CPAP
- Evaluation of accuracy of transcutaneous bilirubinometry on forehead, sternum, interscapular region, ear cartilage and wrist and comparison with total serum bilirubin in newborns with GA above 30 W in Shahid Beheshti hospital
- The effect of astaxanthin supplementation on cytokeratin 18 levels in children and adolescents with non-alcoholic fatty liver
- effect of family-related factors on functional abdominal pain in children referred to pediatric gastrointestinal clinics of Isfahan University of Medical Sciences in 2020-2021
- Optimization of antibacterial and antibiofilm activities of *Lucilia sericata* secretions/ extractions against wound pathogens
- Application of longitudinal quantile regression for studying the effective factors on trend of variations of anthropometric measurements in Isfahanian children with congenital hypothyroidism. 2011.
- Study of awareness level of Isfahanian women about risk factors, warning signs, screening methods and therapeutic methods of breast cancer and its determinants using latent class regression. 2013
- Evaluation and comparison of the proportion of virulence factor genes, antibiotic resistance pattern and biofilm formation in *Staphylococcus aureus* isolates from nasal mucosa culture of patients with diabetes and healthy individuals: a case-control study
- Considering the effect of omeprazole in the rate of urinary excretion of magnesium in children with peptic diseases treated with omeprazole, referring to gastroenterology clinics of Isfahan University of Medical Sciences in the period 2019-2020
- Proportion of toxin and non-toxin virulence factor genes of *Staphylococcus aureus* in diabetic foot infection: a systematic review and meta-analysis
- The association between serum procalcitonin levels and diabetic foot infection: a systematic review and meta-analysis of observational studies
- Investigating the effect of breastfeeding on the metabolic epigenome of infants by LEP and RXRA genes: PERSIAN Birth Cohort study
- The relationship between behavioral problems in 7 to 13 years old children with cerebral palsy and mothers' depression

- Evaluation of Gabapentin effect on feeding refusal in infants age 3 to 6 months.
- Evaluation of knowledge, attitude and practice of some of Isfahan Birth Cohort mothers about Coronavirus (COVID-19) infection in 2020
- Comparison of the effect of Kidilact Sachet and Yomogi Capsule consumption on the severity of the disease and the length of hospital stay of patients with viral diarrhea
- Assessment of the effect of telemedicine on the treatment of attention deficit hyperactivity disorder (ADHD) in children and adolescents: systematic review and meta-analysis
- Assessment of the influence of paternal exercise on memory and learning of offspring: systematic review and Meta-analysis
- Bacterial profile and antimicrobial resistance patterns of diabetic foot infections in Iran: a systematic review and meta-analysis
- The Association between sleep quality disorders and Neurodevelopment in Infants :A sub study of Isfahan Birth Cohort (IBC)
- Modeling of causes and failure rate of evaluated job accidents by inspector of labor and forensic experts of Isfahan province from the HSE Management Perspective
- Effect of probiotic supplementation on total antioxidant capacities in children and adolescents exposed to air pollutants: A randomized, double-blind, placebo-controlled trial
- Effect of probiotic supplementation on oxidative stress marker in healthy children and adolescents exposed to air pollutants : A Randomized, Double-Blind, Placebo-Controlled Trial
- Assessment of the relationship between serum levels of trace elements (zinc, copper and selenium) during pregnancy and neonatal birth weight: A systematic review and meta-analysis study
- Association between Environmental Factors and Anti-thyroid Peroxidase Antibody in Isfahan Thyroid Cohort Study Participants
- Evaluating the effect of educating “care for child development guidelines” to mothers on behavioral development of 18 months old children: A randomized clinical trial
- Isfahan Insulin Dependent Diabetes Mellitus Registry - (IDDMR)
- prevalence and incidence of diabetes complications in diabetic patients - Isfahan Diabetes Cohort Study
- Evaluation of the Relationship between Ergonomic Factors of chair with Frequency Distribution of Musculoskeletal Complaints among Health Workers of Isfahan Province
- Investigating the Relationship between Psychological Factors and Musculoskeletal Disorders in a Metal Industry in Isfahan Province
