Self-description:

After finishing medical school, I immediately started residency in psychiatry and then graduated as a psychiatrist in 1995 from the Isfahan University of Medical Science, Isfahan, Iran which has always been among the top three medical schools of Iran. From 1995-2002 I was serving as an assistant professor of psychiatry at the Kurdistan University of Medical Sciences. During this time, I was also elected as the dean of medical school and served for 2 years. Then, I was elected as the vice chancellor for education at the Kurdistan University of Medical Sciences and my servings lasted 4 years in this position.

Since 2002, I have joined the psychiatry department of Isfahan University of Medical Sciences as a faculty member. Besides treating patients and serving in various administrative positions, I have mentored many medical and PhD students as well as psychiatry residents. I was elected as the research deputy of the department of psychiatry since 2002 and also the chair of the Behavioral Sciences Research Center affiliated with the Isfahan University of Medical Sciences from Oct. 2016 to Aug 2022.

Education:

- **1984-1991:** Doctor of Medicine program at the school of Medicine, Isfahan University of Medical Sciences, Isfahan, Iran.
- **1991-1994:** Residency in Psychiatry at the school of Medicine, Isfahan University of Medical Sciences, Isfahan, Iran.

Work Experience:

Academic:

- **1994- 2002:** Assistant professor of psychiatry, Kurdistan University of Medical Sciences, Sanandaj, Iran.
- **2002-2015:** Assistant professor of psychiatry, Isfahan University of Medical Sciences, Isfahan, Iran.
- **2015-2021:** Associate professor of psychiatry, Isfahan University of Medical Sciences, Isfahan, Iran.
- **2021-present:** Professor of psychiatry, Isfahan University of Medical Sciences, Isfahan, Iran.

Administrative:

- **1986-2001:** Chair, Psychiatry Department, Kurdistan University of Medical Sciences, Sanandaj, Iran .
- **1986-1988:** Dean of Medical School, Kurdistan University of Medical Sciences, Sanandaj, Iran .

- **1988-2002:** The Vice chancellors for education of Kurdistan University of Medical Sciences, Sanandaj, Iran.
- **2016 -2023:** Chair, Behavioral Sciences Research Center, Isfahan University of Medical Sciences, Isfahan, Iran.
- **2002-present:** The Research Deputy of the department of psychiatry of Isfahan University of Medical Sciences.

Educational Services:

- Active and continuous participation in the processes of “theoretical and clinical education” of medical students of professional doctorate and residents of psychiatry since 1994.
- Active and continuous participation in “continuing medical education programs” for general practitioners, psychiatrists and other medical specialties in Kurdistan and 1994-2002.
- Active and continuous participation in “continuing medical education programs” for general practitioners, psychiatrists and other medical specialties in Isfahan provinces since 200-present.
- Active and continuous participation in “public health education programs” through radio, television and virtual space in various fields of mental health since 1994-present

Mentorship Experiences:

A: Mentoring medicine and master of science (MSc) students:

- 1- A survey on the hospitalized patients in the psychiatry department of Tawheed Hospital in Sanandaj in terms of the type of disease and its relationship with age, gender, occupation, education, marital status and season of hospitalization during the years 1994-95.
- 2- A survey on the prevalence of depression and its predisposing factors in students of Kurdistan University of Medical Sciences in 1997.
- 3- A survey on the types of poisoning (intentional-accidental) and its relationship with some individual characteristics of the poisoned patients in patients

referred to Tawheed and Hazrat Rasool (PBUH) hospitals in Sanandaj during the period of 6 months from June to November 1998.

- 4- A survey on the effective factors on the motivation of faculty members of Kurdistan University of Medical Sciences in teaching students in 1998.
- 5- Epidemiological study of depression in Kamiyaran city in 1998.
- 6- The position and importance of community-oriented medical education from the point of view of medical and nursing students of Kurdistan University of Medical Sciences in 2001.
- 7- A survey on the relationship between average lithium level and length of hospitalization in patients with bipolar disorder admitted to Quds Psychiatric Hospital in Sanandaj, in 1999-2001.
- 8- A survey on the amount of study of scientific medical resources by general practitioners in Kurdistan province and related factors in 2001.
- 9- A survey on the quality of life of patients with COPD and comparing it with the control group in 2002.
- 10- Studying the relative frequency of obsessive-compulsive disorder in outpatients aged 18-65 years old, referring to clinics and private dermatology offices in Isfahan city in 2002.
- 11- A survey on the relative frequency of postpartum depression and its relationship with mental health in their husbands and comparing it with the control group, Khomeini Shahr, in 2003.
- 12- A survey on the distribution of various disability among the workers of Isfahan city and comparing its changes in five years from 1982- 2001.
- 13- A survey on the lifestyle in chronic obstructive pulmonary disease (COPD) patients and comparing it with the control group in 2003.
- 14- A comparative study of growth indicators at birth in babies of depressed and non-depressed mothers who referred to the health centers of Najaf Abad Health Center in 2003.
- 15- A comparative study of the prevalence of depression among mothers of children with asthma and allergies, mothers of children with diabetes and control group in Isfahan city, 2004.

- 16- A comparative study of the depression in patients with high blood pressure and the control group, 2004.
- 17- Studying the relative frequency of obsessive-compulsive disorder in eczematous patients and its relationship with the severity and extent of eczema lesions in patients who referred to the dermatology clinic of Shariati Hospital in 2007.
- 18- A comparative study of the frequency of bipolar spectrum disorders in patients with anxiety disorders and the control group in Isfahan city in 2008-2009.
- 19- A comparative study of depression, anxiety, stress and quality of life in non-Iranian and Iranian students of medical, dental and pharmacy schools of Isfahan University of Medical Sciences, 2011-2012.
- 20- Comparison of left ventricular function in heart attack patients with and without type D personality, 2013.
- 21- Empathy of faculty doctors of different specialized fields of Isfahan University of Medical Sciences in dealing with patients, 2015.
- 22- A survey on the impact of a support program based on the psychosocial needs of the family on the care burden of family caregivers of patients with ischemic heart disease hospitalized in the cardiac departments of Shahid Chamran Hospital, Isfahan University of Medical Sciences in 2014.
- 23- A survey on the effect of inhalation aroma therapy with Rosemary and Lavender in the third trimester of pregnancy on the level of postpartum depression in women at risk referring to selected health centers in Yazd in 2014.
- 24- A survey on the effect of vitamin B6 administration in the third trimester of pregnancy on the postpartum depression score of "mothers at risk" of health centers in Isfahan, 2014-2015
- 25- A comparative study of the average score of anxiety and depression in patients with chronic allergic rhinitis with the control group, 2016.
- 26- A comparative study of sleep hygiene knowledge among students of Isfahan University, Isfahan Medical Sciences and Isfahan Industrial University, 2016.

- 27- A comparative study of factors related to attitude and performance toward sleeping among students of Isfahan University of Medical Sciences and Isfahan University of Technology, 2016.
- 28- A survey on some factors related to the stigma of depression in students of Isfahan University of Medical Sciences, Isfahan University and Isfahan University of Arts, 2016.
- 29- Comparison of the expression of Bcl-2 and Bax genes on peripheral blood lymphocytes of patients with depression and healthy people, 2017.
- 30- A survey on the relationship between anxiety and depression with asthma severity in Isfahan asthma sufferers 2015.
- 31- A survey on the effectiveness of mutual behavior analysis intervention on primary maladaptive schemas, interpersonal problems and preparation for treatment of addicts under methadone treatment, 2018.
- 32- Depression literacy among teaching hospital staff of Isfahan University of Medical Sciences, 2018.
- 33- A survey on the relationship between sleep disorder and nutrition pattern during pregnancy with postpartum depression in women referring to health centers in Ardabil city in 2013
- 34- A survey on the relationship between family functioning and stress, anxiety and depression of Isfahan Air Force pilots in 2018-2019.
- 35- A survey on the effect of the educational program of behaviors related to health promotion on successful aging in the elderly referring to the health centers of Isfahan city in 2014
- 36- A survey on the effect of family counseling in order to increase husband's support on the prevention of postpartum depression in high-risk pregnant women in Isfahan-2019
- 37- A survey on the association of personality traits with vascular endothelial function or systemic inflammation? 2019.
- 38- A survey on the relationship between depression and common contraceptive methods in women covered by health centers in Isfahan city in 2019

B: Mentoring psychiatry residents & Ph.D. students:

- 1- Effectiveness of a short educational-psychological intervention (self-management training and behavior modification) in improving the quality of life of patients with chronic obstructive pulmonary disease (COPD), 2007.
- 2- A survey on the relationship between the sexual performance of patients undergoing methadone maintenance treatment with methadone dosage and blood levels of prolactin and testosterone, 2010.
- 3- A comparative study of the effectiveness of Electro-Convulsive Therapy and intravenous ketamine on the control and recurrence of symptoms in patients with depression who are candidates for electroshock therapy, 2011.
- 4- A survey on the relationship between pregnancy depression and childbirth outcomes in pregnant women covered by selected health-therapeutic centers in Isfahan in 2010-2011.
- 5- A survey on the relationship between depression and common methods of pregnancy prevention in women covered by health-therapeutic centers in Isfahan city in 2010.
- 6- A survey on the relationship between personality traits and adherence to treatment in patients with high blood pressure, 2010.
- 7- A survey on the relationship between personality traits, anxiety, depression and stress with self-care status in hemodialysis patients, 2010.
- 8- A survey on the educational needs and approach of general practitioners regarding patients with psychiatric disorders, Isfahan province, 2009-2010.
- 9- A comparative study of the role of training based on needs assessment with Text book based training of families of patients with schizophrenia on disease recurrence, performance and quality of life of the patient and the patient's family, 2011.

- 10- A survey of association between "Endothelial dysfunction and low grade inflammation" with "Anxiety-Depressive symptoms and personality traits" in Iranian national oil company staffs, Isfahan, 2011.
- 11- Determining the factors related to delay in treatment of the patients suffering from depression in Isfahan city, 2012.
- 12- Comparing the effectiveness of adding buprenorphine or placebo in reducing the craving to substance use, in methamphetamine-dependent patients treated with the Matrix program, 2013.
- 13- A survey on the impact of Ovum donation on the mental health of donors who referred to the Fertility and Infertility Center, Isfahan 2013.
- 14- Comparing the effectiveness of adding valproate or placebo in reducing the craving to substance use, in methamphetamine-dependent patients treated with the Matrix program, 2014.
- 15- Design, development and evaluation of an inter-professional guide to care in the stillbirth experience: an exploratory mixed-methods study, 2015.
- 16- A comparative study of the effectiveness of citalopram and metacognitive intervention on the severity of depression in patients with depressive disorder, 2016.
- 17- A survey on the effect of adding pregabalin to the treatment as usual of opioid withdrawal in reducing withdrawal symptoms in dependent patients, 2016.
- 18- A comparative study of the effect of gabapentin and pregabalin in reducing opioid withdrawal symptoms, 2016.
- 19- A comparative study of the antidepressant effect of oral ketamine, injectable ketamine and Electro-Convulsive Therapy (E.C.T) in patients with major depression who are candidates for E.C.T, Isfahan 2016
- 20- Design and evaluation of a mental health promotion program for pregnant women: a multi-method study, 2017.
- 21- design and psychometrics of a predictive tool for postpartum depression: a mixed study, 2017.

- 22- A survey on the effect of the community return program in reducing positive and negative symptoms and improving social skills in people with schizophrenia, 2017.
- 23- Designing and psychometric measurement of nurses' attitudes towards people with self-harm: a mixed study, 2018.
- 24- Efficacy of Add-on Memantine to clonidine on severity of opioid substances (heroin and opium) withdrawal symptoms, 2019
- 25- Comparison of the efficacy of add on therapy with buprenorphine vs. placebo on reduction of relapse in Met Amphetamine dependants on treatment with Matrix program, 2019
- 26- A survey on the effect of adding perphenazine to the matrix treatment program in comparison with placebo on the control of cravings and slippage in methamphetamine users, 2019
- 27- Comparison Between the Effect of 1 & 2 mg/kg per oral Ketamine on Control and Relapse of Depressive Symptoms in Treatment-Resistant Depressed: A Randomized, Triple Blind Clinical Trial (a pilot study), 2019.
- 28- The effect of amantadine on reduction of relapse and craving among people with Met Amphetamine use disorder, 2020
- 29- A comparative study of the mental health status of the staff in Khorshid Hospital (hospitalization site of patients with corona) with Emam hossein Hospital (no hospitalization site of patients with corona) in periods of 3, 6 and 9 months after the outbreak of corona, Isfahan, 2020.
- 30- Efficacy of Add-on Amantadine to clonidine on severity of opioid substances (heroin and opium) withdrawal symptoms, 2020.
- 31- A survey on the effect of memantine on improving hyperalgesia in methadone maintenance patients, 2021
- 32- comparative evaluation of folic acid and vitamin B6 effects in prevention of postpartum depression in mothers at risk of postpartum depression, 2022.
- 33- Investigating the effect of ketamine on the severity of pain in patients with somatic symptoms disorder with pain predominance: a randomized controlled trial, 2024

C: Research projects funded by the university where I was employed:

- 1- A survey on the prevalence of psychiatric disorders in patients with Major Thalassemia in the special diseases department of the Sanandaj, 1997.
- 2- A survey on the attitude of the people of Sanandaj city to mental illnesses, 1998.
- 3- A survey on the mental health of urban people over 15 years of age in Kurdistan province and related factors in 1999.
- 4- A survey on the epidemiology of depression in the third trimester of pregnancy and after delivery in mothers and its relationship with growth indexes at birth and the first year of their children and the quality of care giving of the mothers, Isfahan, 2006.
- 5- A comparative study of the role of education based on needs assessment with text book based education method in the families of patients with schizophrenia on prevention of disease relapse, Isfahan, 2006.
- 6- A survey on the prevalence of bipolar disorders in rural pregnant mothers of Isfahan province and its relationship with postpartum depression, 2007.
- 7- The effect of community-oriented therapy on increasing the level of hope in the substance user clients who referred community-oriented therapy center in Isfahan city, 2008.
- 8- Evaluating the psychometric properties of the Persian version of Edinburgh postpartum depression scale in Isfahan city, 2009.
- 9- A survey on and comparing the quality of night sleep among type 2 diabetes patients, their non-diabetic first degree relatives and those with glucose tolerance disorder, fasting blood sugar disorder, among those referred to the Endocrine and Metabolism Research Center of Isfahan University of Medical Sciences in 2009.
- 10- A survey on the psychometric properties of the quality of life questionnaire of patients with irritable bowel syndrome, isfshan, 2009.
- 11- A survey on the distribution of psychiatric disorders in suicide attempters referred to the poisoning department of Khurshid Hospital, Isfahan, 2010.

- 12- Design, implementation and evaluation of a training workshop on pharmacological and non-pharmacological interventions in psychiatric disorders (with an emphasis on depression) for nurses working in the psychiatric departments of Isfahan University hospitals in 2012.
- 13- A survey on the average score of depression, anxiety and IQ indicators in congenital hypothyroid children under treatment aged 7-11 and comparing with the control group, Isfahan, 2013.
- 14- Validity, reliability and factor analysis of Persian version of quality of life scale for patients with schizophrenia, Isfahan, 2015.
- 15- Psychological factors in the performance of employees of Isfahan University of Medical Sciences, 2016.
- 16- Cornell depression scale psychometrics in people with dementia in Isfahan, 2017.
- 17- Psychometric properties of Persian version of short illness perception questionnaire in chronic diseases, 2018.
- 18- The state of quality of life, anxiety and depression in methamphetamine users and their main caregivers before and after participating in the Matrix training course in a 6-month period, Isfahan, 2018.
- 19- Evaluation of risk factors of general health (Physical, Psychological and Social Function) of Isfahan hospital staff in one year after the outbreak of Covid-19 disease, Isfahan, 2020-2021
- 20- Comparison of the effects of "psychological training based on bioenergy economy" on the severity of symptoms, body awareness and quality of life in patients with moderate depression, 2022

D: Research funds received from other centers (grant):

- **Title:** Risk and protective factors of relapse (slippage and re-dependence) to drug use among drug addicts undergoing maintenance treatment in Isfahan city: (presenting a future research structural model to improve the effectiveness of maintenance treatments), 2017.
- **Employer:** Research and training office of the anti-narcotics headquarters
- **Place of execution:** Isfahan province

- **Approved credit:** 99,000,000 riyals
- **Research project contract number:** 2066656/38

Honors and distinctions:

- Ranked as the top researcher of the Kurdistan and Isfahan University of Medical Sciences in 2 times since 1995.
- Ranked as the top teacher of the Kurdistan and Isfahan University of Medical Sciences in 3 times since 1995.
- Certificate of Appreciation from the Senior Manager Anti-Narcotics Headquarters

Isfahan province for research activities in this field (2018)

Memberships:

- The Islamic Republic of Iran Medical Council (IRIMC)
- Iranian Psychiatric Association (IPA)
- Iranian Medical Education Association (IMEA)
- European Psychiatric Association

Workshops and Courses:

- 1997-1 **Participation in a 3-day workshop entitled**" Revising of Iranian Mental Health Program in Primary Health Care"
Kermanshah University of Medical Sciences.
- 1997-2 **Participation in a 2-day workshop entitled**" Iranian Mental Health Program"
Khorasan University of Medical Sciences, Mashhad, Iran.
- 2000 **Participation in a 2-day workshop entitled**" Clinical Education Lesson Planning"
Kurdistan University of Medical Sciences, Sanandaj, Iran
- 2002-1 **Participation in a one-day workshop entitled**" How to collect information from English medical texts"
Kurdistan University of Medical Sciences, Sanandaj, Iran.
- 2002-2 **Participation in a one-day workshop entitled**" How to write a scientific article in English"
Kurdistan University of Medical Sciences, Sanandaj, Iran.

- 2002-4 **Participation in a one-day workshop entitled**"How to write C.V, letters and recommendations in English" Kurdistan University of Medical Sciences, Sanandaj, Iran.
- 2005 **Participation in a 3-day Workshop entitled**" research methodology" Institute of Cognitive Sciences Study, Tehran University of Medical Sciences. Teharan, Iran.
- 2006-1 **Participation in a 3-day Workshop entitled**" SPSS" Isfahan University of Medical Sciences, Isfahan, Iran.
- 2006-2 **Participation in a 3-day Workshop entitled**" WORD" Isfahan University of Medical Sciences, Isfahan, Iran.
- 2007 **2007 (March19- April 4):** A short course on" Public Health and Medicine a Project for Iranian Medial Professionals", **Washington D.C** (Professional Exchange & Community Outreach).
- 2007 **Participation in a 3-day Workshop entitled**" POWER POINT" Isfahan University of Medical Sciences, Isfahan, Iran.
- 2009-1 **Participation in a 3-day Workshop entitled**" Reference Manager" Isfahan University of Medical Sciences, Isfahan, Iran.
- 2009-2 **Participation in a one- day Workshop entitled**" Review Article Writing" Isfahan University of Medical Sciences, Isfahan, Iran.
Participation in a 2 -day Workshop entitled" Manuscript Editing and Research Publication "
- 2011 Isfahan University of Medical Sciences, Isfahan, Iran
- 2012 **Participation in a 2- day Workshop entitled**" Knowledge Transfer and Exchange "Isfahan University of Medical Sciences, Isfahan, Iran

- 2014 **Participation in a 4 -day Workshop entitled" DAAD Psycho-Oncology"**
Isfahan University of Medical Sciences, Isfahan, Iran
- 2015-1 **Participation in a 2- day Workshop entitled" Trans-cranial Electrical
Stimulation for Psychiatric and Neurologic Disorders".** Isfahan, Iran.
- 2015-2 **Participation in a 3- day Workshop entitled" Endnote"**
Isfahan University of Medical Sciences, Isfahan, Iran.
- 2017 **Participation in a 3- day Workshop entitled" Cochrane Systematic
Review"** Isfahan University of Medical Sciences, Isfahan, Iran.
- 2018 **Scientific Committee Member and Participation in "4th international
congress on Psychosomatic Medicine".** Isfahan University of Medical
Sciences, Isfahan, Iran.
- 2019 **Participation in a 1-day Workshop entitled" Evidence-Based Medicine
Reference Manager".** Isfahan University of Medical Sciences, Isfahan,
Iran.
- 2021 **Participation in a 1- day Workshop entitled" question design training
workshop".** Isfahan University of Medical Sciences, Isfahan, Iran.
- 2021 **Participation in a 1- day Workshop entitled" workshop on ethics in
biomedical research ".** Isfahan University of Medical Sciences, Isfahan,
Iran.
- 2021 **Participation in a 1- day Workshop entitled" Data mining training
workshop as an approach to extract hidden patterns in medical data ".**
Isfahan University of Medical Sciences, Isfahan, Iran.
- 2021 **Participation in a 1- day Workshop entitled" Curriculum management
workshop ".** Isfahan University of Medical Sciences, Isfahan, Iran.
